Grading scheme

In the Spanish university system, modules/courses are graded on a scale of 0 to 10 points with the following qualitative equivalence:

0-4.9: "suspenso"; 5-6.9: "aprobado"; 7-8.9: "notable"; 9-10: "sobresaliente". A special mention, "Matrícula de Honor" may be granted to up to 5% of the students in a group provided they have got a "sobresaliente". To pass a module/course it is necessary to get at least 5 points.

In cases of recognition of ECTS, professional experience, cultural or sports activities, or student representation no grading will be recorded but, where appropriate, the word "Apto".

INFORMATION ON THE FUNCTION OF THE QUALIFICATION

Access to further study

This qualification gives access to Doctoral studies, provided that the student has completed a minimum of 300 ECTS in the overall teachings of Bachelor and Master.
Stated objectives associated with the qualification and professional status (if applicable)

The general objective attends scientific consideration of language in three main aspects: studies the general principles and development, systematic and practical, sound emission, the iconic and conceptual representation of the world of life from the framework of human communication. Linguistics responds of such principles as the science of the Language. Studies in addition the international interest of eminent linguists who reflect on relevant aspects of the Hispanic world language. This Master studies also linguistic communication in their systematic and practical aspect, since the origins of the intercom from the media and computational techniques of language writing.

The Science Master of language and Spanish linguistics student acquires a high academic training to start doctoral studies or research projects on language, linguistic relations of iconic, conceptual and expressive fields and media.

Is also trained for the profession in teaching or technical areas related to language and the business world by capacity of synthesis and of "economy" means in relation to communication, the balance of possible "productions" and "performance" of a specific programme: conception, organization, planning, lexical and syntactic communicative interactivity, etc.
