- Master's Thesis in Teacher Training for Secondary Education. Specialty of Modern Languages: English
- Master's Thesis in Teacher Training for Secondary Education. Specialty of Training and Careers Guidance

- Master's Thesis in Teacher Training for Secondary Education. Specialty of Greek
- Master's Thesis in Teacher Training for Secondary Education. Specialty of Latin
- Master's Thesis in Teacher Training for Secondary Education. Specialty of Technology of Machines, Fluids and Maintenance
- Master's Thesis in Teacher Training for Secondary Education. Specialty of Geography and History
- Master's Thesis In Teacher Training For Secondary Education. Specialty Of Modern Languages: French

Grading scheme

In the Spanish university system, modules/courses are graded on a scale of 0 to 10 points with the following qualitative equivalence:

0-4.9: "suspenso"; 5-6.9: "aprobado"; 7-8.9: "notable"; 9-10: "sobresaliente". A special mention, "Matrícula de Honor" may be granted to up to 5% of the students in a group provided they have got a "sobresaliente". To pass a module/course it is necessary to get at least 5 points.

In cases of recognition of ECTS, professional experience, cultural or sports activities, or student representation no grading will be recorded but, where appropriate, the word "Apto".

INFORMATION ON THE FUNCTION OF THE QUALIFICATION

Access to further study

This qualification gives access to Doctoral studies, provided that the student has completed a minimum of 300 ECTS in the overall teachings of Bachelor and Master.

Stated objectives associated with the qualification and professional status (if applicable)

This degree qualifies for the practice of the professions of Professor of Compulsory Secondary Education, Upper Secondary Education, Vocational Training and Language Teaching, regulated by the Order ECI / 3858/2007 of December 27, BOE of December 29, 2007. This degree enables: 1. To know the curriculum content for the subjects in one's specialization and the body of

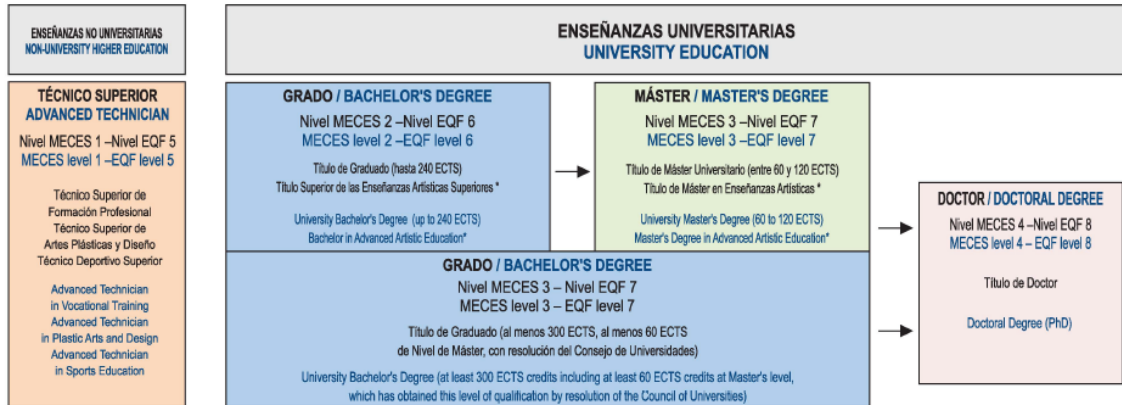

didactic knowledge concerning the respective teaching and learning processes. Vocational training teachers must also know the professions concerned. 2. To plan, carry out and evaluate the teaching and learning process, while strengthening educational processes that facilitate the acquisition of the competences inherent in the respective teachings, taking account of students' attainment level, prior education and orientation, both individually and in partnership with other teachers and professionals at the school. 3. To seek, obtain, process and communicate information (oral, printed, audiovisual, digital or multimedia), to transform information into knowledge and to apply information in teaching and learning processes in the subjects covered by one's specialization. 4. To specify the curriculum that is going to be introduced at a school, while participating in collective curriculum planning; to develop and apply both group and individual teaching methods that are adapted to student diversity. 5. To design and develop spaces where learning can take place, paying special attention to fairness, emotional education, values education, equal rights and opportunities for men and women, citizenship and respect for human rights, such as to facilitate life in society, decision making and the construction of a sustainable future. 6. To acquire strategies for stimulating student efforts and furthering students' ability to learn for themselves and with others and to develop thinking.

The main objective of the program is to provide the future teacher to acquire specialized training with a qualification for the exercise of teaching in Compulsory Secondary Education, Upper Secondary Education, Vocational Training and Language Teaching, accordance with the guidelines and requirements of the Order ECI / 3858/2007 of 27 December; and RD 1834/2008, of November 8th.
